

RESOURCES

(not for the faint-hearted)

**The FRAUD
of
'WORKING for MONEY'
ALL YOUR LIFE for a
'secure future'**

And why it's an ILLUSION

-0-0-0-0- The TRUTH ABOUT YOUR LIFE -0-0-0-0-

INFLATION and how it DESTROYED your financial future – was by design

You did everything right.

You worked hard.

You saved for retirement.

You did as you was instructed built a nest egg — sacrificing today for a better tomorrow.

You invested carefully.

You earned interest on your after-tax savings (you was taxed on again)

And when the time finally came to 'retire' from a lifetime of effort ... you decided it was time to cash in what you had left.

And you eventually realised something.

It wouldn't last long.!

Not with prices rising the way they are.

Which is deliberate.

So you adjusted.

You cut costs.

You gave up the things you'd planned holidays, travel, gifts to family.

You avoided debt.

Kept the old car running.

Fixed things yourself.

You tightened up on everything financially.

Cheaper food. No eating out. No going out at all.

All to make your savings last longer.

But it didn't.

Because, despite the less you spent, the more expensive everything became.

Every trip to the shops the same stuff cost more than the last trip.

You start to realise:

You'd sacrificed your past income to afford a future that is now out of reach.

And the essentials?

They keep rising — no matter what you do.

Utilities. Fuel. Insurance. Taxes.

Not if they go up — but by how much.

And what you'll have to give up next just to get through your day.

At some point, you question

Is this accidental?

Or is it deliberate?

Maybe you begin to see it differently:

And you realise you've been living inside and supporting a system that depends on sucking your time labour and energy, as the fuel it needs to support itself.

It's inevitable outcome is your financial demise and everything that goes along with it

in a system designed for exactly the result you're experiencing

And you, along with everyone else is the fuel it needs.

Quietly eroding everything you have as it's energy source.

A system that keeps you working, keeps you chasing, keeps you just ahead enough so you never realise it and never step away.

For decades, you trade your time your entire life for money in the belief that one day when you've contributed enough, you'll be rewarded as it will be enough to allow you to simply stop and enjoy the "fruits of your labour".

But, one day, the truth hit you.

You won't.

And you'll just join all the "other people" who thought the same Because the rules never stop changing.

***Because the system
isn't built to set you free
It's built to keep you
participating.***

To keep you working.

To keep you dependent.

To keep you controlled.

To keep you trapped until you die.

And it works.

Because it offers you a deal:

Comply — and you might get ahead.

For a while.

But, step out of line and you'll fall behind.

And when you do ... there's no salvation for you.

You're on your own

So you don't leave your residence — because you can't afford to.

You become a prisoner in your own home.

Like everyone else.

You're told inflation is natural.

Unavoidable.

Just part of life.

But rarely do we ask: Who benefits?

Follow the money.

Because as prices rise, even if you 'cut back' your savings still lose value.

Your savings and time — already spent — (you can never get back) buys less and less.

And the future you were promised moves further away to a point, you realise you haven't got one.

The result of a lifetime of effort exchanged to make numbers on a screen.

Numbers that change.

Numbers that get smaller as their value gets less.

And at that time you become irrelevant.

This isn't about one person.

It's everyone.

All victims of a system that extracts time, energy, and life — from millions/billions of people globally doing exactly what they were told to do and mindlessly doing the bidding of that life-sucking system we was born in to.

If you're feeling it, if you resonate with this screed, you're not alone.

You really need to accept, just doing more of the same won't change anything for you.

***Because the system
didn't fail you.***

***It was never
designed for you!***

***And if you still can't see
that – best of luck – you'll
need it.***

Where the system wants to keep you

Nowhere in the universe is there any 'law'
that says any human being can charge another human being
a TAX to live on this Earth or TAX their LABOUR
or SELL the EARTH'S natural resources as if, somehow,
THEY OWN them or have an authority to MONETISE them.

- THEY ARE THIEVES -

who will STEAL ANYTHING they can get
from anyone who LETS them steal from them

(Often they have paid collectors IN FANCY DRESS
DESIGNED TO INTIMIDATE - LIKE police or judges
to act in a pantomime to EXTRACT MONEY from you.
Their uniforms are designed to give the IMPRESSION
their DEMANDS are legitimate and all our lives we've been
TRAINED to FEAR them and NOT QUESTION THEIR DEMANDS)

But ... TAXES - FEES - FINES - are a
man-made construct invented by THIEVES
to DECEIVE you and STEAL FROM THE WEAK

Ironically, whether or not they get away with their THEFT
is usually YOUR choice and if you DO let them YOU
have AGREED to become their 'SLAVE' by your CONSENT

If you CHOOSE to 'pay-up' don't think it solves your problem
and they'll leave you alone.

You've IDENTIFIED yourself as someone who CAN and WILL pay.
and you're a weak target and they won't stop
until they've STOLEN everything that was yours.

Any time they feel like it, they'll be back with bigger demands until
one day, inevitably, you can't pay because you've got nothing left.

THE BIGGEST SCAM IN LIFE IS PAYING TAXES ON THE MONEY WE MAKE, PAYING TAXES ON MONEY WE SPEND, AND TAXES ON THINGS WE OWN, THAT WE ALREADY PAID TAXES ON, WITH ALREADY TAXED MONEY.

**MASSIVE AMOUNT OF RESOURCES
NOT FOR THE FAINT-HEARTED**
see how we been robbed all our lives
